# DAVID JUSTICE

## JR FRONTEND DEVELOPER

## PROJECTS

### Brokersphere - Networking Platform For Realtors

Developed front-end using React.JS, CSS, and HTML. Managed data storage with Firebase services Firestore and Storage. Users could create an account to upload and claim referral leads, like and comment on listings, and join in on topic specific chat rooms. Still in development. - [github.com/Davidjustice28/brokersphere](https://github.com/Davidjustice28/brokersphere)

### Carvana.com Clone

Built a clone of the home page of the popular site Carvana, where users are able to order a car online. Created with HTML5 and CSS3 - [davidjustice28.github.io/Carvana-Clone/](https://davidjustice28.github.io/Carvana-Clone/)

### Weather Application

A simple application that displays weather data for any U.S. city. Built with HTML, CSS, Javascript. Utilized OpenWeatherMap API to access weather data. Utilized CSS skills to make page responsive. - <https://davidjustice28.github.io/weather-app>

### Admin Dashboard

Created a complex admin dashboard webpage through accurately following a given Figma mockup. Built with HTML, CSS, and Javascript - [davidjustice28.github.io/Admin-Dashboard](https://davidjustice28.github.io/Admin-Dashboard)

### Landing Page For Brokersphere

Dynamic webpage functioning as a landing page for the coming soon Brokersphere web-application. Simple animations & links to waitlist sign-up. - [brokersphere.net](https://brokersphere.net)

## Experience

### Berkshire Hathaway Fox & Roach - Licensed Real Estate Agent Jun 2020 - Currently

- Closed over \$4 million in real estate transactions (26 units)
- Generated leads through social media, direct mail, networking, etc.
- Utilized tools including: CRM, Docusign, Zipforms, etc.

### Mercedes-Benz & Subaru - Car Salesman Feb 2018 - Mar 2020

- Over 2 years of auto sales experience being a top performer at both companies
- Helped customers complete paperwork, detailed vehicles, lead gen, and help customers with technical issues with their vehicles.
- Utilized Eleads CRM

### U.S. Army Active Duty - Tactical Data Systems Specialist May 2016 - Jan 2018

- Prepared FAATDS computer systems for operation to include cabling, installation, and removal procedures. Also, inputted initial data and database information to FAATDS.
- Operated Centaur device which was a lightweight tactical application used for establishing safety firing parameters and solutions.
- Maintained and installed OE-254's to establish communication between unit forces in and out of field training.
